

Why donate to Pha Tad Ke ?

Laos has some of the richest biodiversity in the world, with only an estimated 30% of the plant species described. Pha Tad Ke is actively collecting and cataloguing Lao plant species to conserve this precious biodiversity and preserve traditional ethno-botanical knowledge of these plants.

100% of our revenues are reinvested in the garden development, research and education !

Pha Tad Ke also ...

- Provides educational opportunities for children, students and local farming communities
- Conducts regular fieldtrips with national and international botanists and researchers
- Publishes educational manuals and books in English, French and Lao
- Organizes cultural and artistic activities throughout the year in the garden and in Luang Prabang
- Offer a responsible tourism destination to travelers
- Supports the local economy by sourcing and producing our merchandise sustainably

For more information on what we do, come visit or contact us at: contact@pha-tad-ke.com

Become actively involved in the creation of Pha Tad Ke by supporting our special projects:

• **Adopt a tree: from \$ 50 to \$ 2.000**

Planting a tree is only a beginning. It must then be fed, cared for and pruned, this takes time and care. Love your tree and adopt a seedling or a mature tree.

• **Sponsor a book party: \$ 300**

A sponsored visit to the garden for a group of children or students, who will spend a day learning about our work and the flora of Laos.

• **Adopt a bench: \$ 500**

Have your name immortalized with a donor plaque on one of our benches.

• **Sponsor post-doc research post: \$ 2.500 for 1-year**

• **Sponsor a student: \$ 1.500 per year for 2 or 3 years**

In conjunction with the local college and university, Pha Tad Ke has set up a grant for the best first-year students who need financial support.

• **Sponsor our field trips: \$ 6.000**

In conjunction with several international botanical gardens, we have set up partnerships to train our staff and to carry out an ambitious program of field trips to gather specimens for a collection of living plants that will be unique in Asia.

• **Sponsor a building: from \$ 10.000 up**

Pha Tad Ke has opened to the public, but our work is just starting and we have an ambitious program of building work that has to be undertaken to house our collections and staff and facilitate trainings.

Sponsor a building and we will name it after you !
